

About Us

Chisholm & Winch is your specialist building and fit-out construction partner. We have over 32 years experience working in close partnership with the industry's leading architects, engineers, quantity surveyors and project management companies.

We continuously strive for 'right first time' installations, exercising a thorough review process designed to measure performance and delivery the highest quality on-site.

Our work is delivered within budget. Our delivery schedules are on programme. And our attitude towards safety is industry-standard. That's why most of our customers are repeat customers.

We like to be hands-on. Every Chisholm & Winch project has the personal involvement of at least one Director.

Our Work

Chisholm & Winch know projects. We've been a project partner on some of London's most prestigious buildings – from Canary Wharf to Heathrow Airport and the Royal Opera House - across four decades of service to the UK's leading contractors and architects.

We're a full-service construction specialist, with expertise in an array of trades including multi trade fit-outs and joinery, builders work, brick and blockwork.

We work in specialist environments – on airport packages and large-scale social housing projects.

We're a design and build specialist, working on residential and commercial projects from the ground-up.

Each of our key service areas is the responsibility of one or more of our Directors, who play a leading role in the implementation and oversight of all Chisholm & Winch projects.

- Airports
- Brick & Blockwork
- Builders Works
- Design & Build
- Multi-Trade / Fit Out & Joinery
- Residential
- Social Housing

Health & Safety

At Chisholm & Winch, we continually strive to ensure a safe environment for our employees and the public.

We work hard to cultivate a 'safety first' environment and ensure that our staff and contractors are fully aware of current Health & Safety legislation and practices.

We know that training, information and communication are paramount, and have invested to enable everyone working with us to benefit from the latest health and safety information and expertise.
